

Qeap Heimerer

As a holder of Higher Education: Private Bearer of Higher Education "qeap-heimerer" with its basement the Institute of Southeastern Europe for Advancement in Health and Nursing in Kosovo and the Region, and the German Educational Institution Heimerer GmbH with a 30-year experience in Vocational education.

The main inspiration for founding of this institution was the immediate need of providing new qualifications and the improvement of the quality of existing qualifications in social and health fields in general, in particular in field of nursing. Optimal possession of resources for such an educational institution, which by having as a basement the wide network of cooperation with similar institutions in Europe, aims the implementation of the European Community standards in Kosovo that represents a sound guarantee for success.

Our goals

Our institution is based on fundamental values that carry it. They reflect the goals of our activity.

1. The goal of our institutional work lies in: education, schooling, counseling and training. We see as common the professional and social knowledge. Interregional and interdisciplinary transfer of knowledge is very important to us. We create the potential oriented in goals for synergy creativity.
2. We make new paths in education. We are identified with the modern technology and new educational concepts. We work oriented to customer and market.
3. Enumeration for us is a regress. We are leaders in key areas of education and see our duty (responsibility) in advancement of sovereignty and self-responsibility.
4. Optimism is our basic stance. Crises are challenges for us (? a problem to be solved). Civic courage follows us in our everyday life
5. We enable (practice) the open/free communication, critical ability and willingness to discourse. Partnership and cooperation from the inside and abroad are the foundation of our success.

Our vision is to be the leading school in Kosovo and the region for vocational education in social and health.

Our Mission is to implement educational curricula with qualified teachers and modern methodology which enables the achievement of European standards for education of social and health workers, making them competitive in the European market.

"The welfare of the country is safe when schools are build" (Martin Luther).
